## Sexuality

The 1964 Clermont-Ferrand and 1969 Vincennes Lectures

**Michel Foucault, Bernard E. Harcourt, Graham Burchell**

Michel Foucault's *The History of Sexuality*—the first volume of which was published in 1976—exerts a vast influence across the humanities and social sciences. However, Foucault's interest in the history of sexuality began as early as the 1960s, when he taught two courses on the subject. These lectures offer crucial insight into the development of Foucault's thought yet have remained unpublished until recently.

This book presents Foucault's lectures on sexuality for the first time in English. In the first series, held at the University of Clermont-Ferrand in 1964, Foucault asks how sexuality comes to be constituted as a scientific body of knowledge within Western culture and why it derived from the analysis of "perversions"—morbidity, homosexuality, fetishism. The subsequent course, held at the experimental university at Vincennes in 1969, shows how Foucault's theories were reoriented by the events of May 1968; he refocuses on the regulatory nature of the discourse of sexuality and how it serves economic, social, and political ends. Examining creators of political and literary utopias in the nineteenth and twentieth centuries, from Sade to Fourier to Marcuse, who attempted to integrate "natural" sexualities, including transgressive forms, into social and economic life, Foucault elaborates a double critique of the naturalization and the liberation of sexuality. Together, the lectures span a range of interests, from abnormality to heterotopias to ideology, and they offer an unprecedented glimpse into the evolution of Foucault's transformative thinking on sexuality.

## The Gentrification of the Internet

How to Reclaim Our Digital Freedom  
**Jessa Lingel**

**How we lost control of the internet—and how to win it back.**

The internet has become a battleground. Although it was unlikely to live up to the hype and hopes of the 1990s, only the most skeptical cynics could have predicted the World Wide Web as we know it today: commercial, isolating, and full of, even fueled by, bias. This was not inevitable. *The Gentrification of the Internet* argues that much like our cities, the internet has become gentrified, dominated by the interests of business and capital rather than the interests of the people who use it. Jessa Lingel uses the politics and debates of gentrification to diagnose the massive, systemic problems blighting our contemporary internet: erosions of privacy and individual ownership, small businesses wiped out by wealthy corporations, the ubiquitous paywall. But there are still steps we can take to reclaim the heady possibilities of the early internet. Lingel outlines actions that internet activists and everyday users can take to defend and secure more protections for the individual and to carve out more spaces of freedom for the people—not businesses—online.

## Is That True?

Critical Thinking for Sociologists  
Joel Best

Across disciplines, critical thinking is praised, taught, and put into practice. But what does it actually mean to think critically? In this brief volume, sociologist Joel Best examines how to evaluate arguments and the evidence used to support them as he hones in on *how to think* in the field of sociology and beyond.

With inimitable style that melds ethnographic verve with dry humor, Best examines the ways in which sociologists engage in fuzzy thinking through bias, faddish cultural waves, spurious reasoning, and implicit bias. The short chapters cover:

- A general introduction to critical thinking and logic in the social sciences
- Sociology as an enterprise
- Key issues in thinking critically about sociological research
- Challenging questions that confront sociologists and a call for the discipline to meet those challenges.

Students across disciplines will learn the building blocks of critical thinking in a sociological context and come away with key concepts to put into practice.

## The Dating Divide

Race and Desire in the Era of Online Romance  
Celeste Vaughan Curington, Jennifer H. Lundquist, Ken-Hou Lin

### The data behind a distinct form of racism in online dating

*The Dating Divide* is the first comprehensive look at "digital-sexual racism," a distinct form of racism that is mediated and amplified through the impersonal and anonymous context of online dating. Drawing on large-scale behavioral data from a mainstream dating website, extensive archival research, and more than seventy-five in-depth interviews with daters of diverse racial backgrounds and sexual identities, Curington, Lundquist, and Lin illustrate how the seemingly open space of the internet interacts with the loss of social inhibition in cyberspace contexts, fostering openly expressed forms of sexual racism that are rarely exposed in face-to-face encounters. *The Dating Divide* is a fascinating look at how a contemporary conflux of individualization, consumerism, and the proliferation of digital technologies has given rise to a unique form of gendered racism in the era of swiping right—or left.

The internet is often heralded as an equalizer, a seemingly level playing field, but the digital world also acts as an extension of and platform for the insidious prejudices and divisive impulses that affect social politics in the "real" world. Shedding light on how every click, swipe, or message can be linked to the history of racism and courtship in the United States, this compelling study uses data to show the racial biases at play in digital dating spaces.

## Vice, Crime, and Poverty

How the Western Imagination Invented the Underworld

**Dominique Kalifa, Susan Emanuel, Sarah Maza**

Beggars, outcasts, urchins, waifs, prostitutes, criminals, convicts, madmen, fallen women, lunatics, degenerates—part reality, part fantasy, these are the grotesque faces that populate the underworld, the dark inverse of our everyday world. Lurking in the mirror that we hold up to our society, they are our counterparts and our doubles, repelling us and yet offering the tantalizing promise of escape. Although these images testify to undeniable social realities, the sordid lower depths make up a symbolic and social imaginary that reflects our fears and anxieties—as well as our desires.

In *Vice, Crime, and Poverty*, Dominique Kalifa traces the untold history of the concept of the underworld and its representations in popular culture. He examines how the myth of the lower depths came into being in nineteenth-century Europe, as biblical figures and Christian traditions were adapted for a world turned upside-down by the era of industrialization, democratization, and mass culture. From the Parisian demimonde to Victorian squalor, from the slums of New York to the sewers of Buenos Aires, Kalifa deciphers the making of an image that has cast an enduring spell on its audience. While the social conditions that created that underworld have changed, *Vice, Crime, and Poverty* shows that, from social-scientific ideas of the underclass to contemporary cinema and steampunk culture, its shadows continue to haunt us.

## Indebted

How Families Make College Work at Any Cost  
**Caitlin Zaloom**

**How the financial pressures of paying for college affect the lives and well-being of middle-class families**

The struggle to pay for college is a defining feature of middle-class life in America. Caitlin Zaloom takes readers into homes of families throughout the nation to reveal the hidden consequences of student debt and the ways that financing college has transformed our most sacred relationships. She describes the profound moral conflicts for parents as they try to honor what they see as their highest parental duty—providing their children with opportunity—and shows how parents and students alike are forced to gamble on an investment that might not pay off. Superbly written and unflinchingly honest, *Indebted* breaks through the culture of silence surrounding the student debt crisis, exposing the unspoken costs of sending our kids to college.

## Byzantine Intersectionality

Sexuality, Gender, and Race in the Middle Ages  
Roland Betancourt

**A fascinating history of marginalized identities in the medieval world**

While the term “intersectionality” was coined in 1989, the existence of marginalized identities extends back over millennia. *Byzantine Intersectionality* reveals the fascinating, little-examined conversations in medieval thought and visual culture around matters of sexual and reproductive consent, bullying and slut-shaming, homosocial and homoerotic relationships, trans and nonbinary gender identities, and the depiction of racialized minorities. Roland Betancourt explores these issues in the context of the Byzantine Empire, using sources from late antiquity and early Christianity up to the early modern period. Highlighting nuanced and strikingly modern approaches by medieval writers, philosophers, theologians, and doctors, Betancourt offers a new history of gender, sexuality, and race.

Betancourt weaves together art, literature, and an impressive array of texts to investigate depictions of sexual consent in images of the Virgin Mary, tactics of sexual shaming in the story of Empress Theodora, narratives of transgender monks, portrayals of same-gender desire in images of the Doubting Thomas, and stereotypes of gender and ethnicity in representations of the Ethiopian Eunuch. He also gathers evidence from medical manuals detailing everything from surgical practices for late terminations of pregnancy to save a mother's life to a host of procedures used to affirm a person's gender.

Showing how understandings of gender, sexuality, and race have long been enmeshed, *Byzantine Intersectionality* offers a groundbreaking look at the culture of the medieval world.

## Billionaire Wilderness

The Ultra-Wealthy and the Remaking of the American West  
Justin Farrell

**A revealing look at the intersection of wealth, philanthropy, and conservation**

*Billionaire Wilderness* takes you inside the exclusive world of the ultra-wealthy, showing how today's richest people are using the natural environment to solve the existential dilemmas they face. Justin Farrell spent five years in Teton County, Wyoming, the richest county in the United States, and a community where income inequality is the worst in the nation. He conducted hundreds of in-depth interviews, gaining unprecedented access to tech CEOs, Wall Street financiers, and other prominent figures in business and politics. He also talked with the rural poor who live among the ultra-wealthy and often work for them. The result is a penetrating account of the far-reaching consequences of the massive accrual of wealth and a troubling portrait of a changing American West where romanticizing rural poverty and conserving nature can be lucrative, socially as well as financially.

## Love, Money, and Parenting

How Economics Explains the Way We Raise Our Kids

**Matthias Doepke, Fabrizio Zilibotti**

**An international and historical look at how parenting choices change in the face of economic inequality**

*Love, Money, and Parenting* investigates how economic forces shape how parents raise their children. In countries with increasing economic inequality, parents push harder to ensure their children have a path to security and success. In the United States, this force has transformed the hands-off parenting of the 60s and 70s into a frantic, overscheduled activity. Growing inequality has also resulted in an increasing "parenting gap" between richer and poorer families, raising the disturbing prospect of diminished social mobility. Drawing from the experiences of countries of high and low economic inequality, Matthias Doepke and Fabrizio Zilibotti discuss how changes to public policy can contribute to the ideal of equal opportunity for all.

## Ballad of the Bullet

Gangs, Drill Music, and the Power of Online Infamy

**Forrest Stuart**

**How urban youth in Chicago use social media to profit from portrayals of gang violence, and the questions this raises about poverty, opportunities, and public voyeurism**

Amid increasing hardship and limited employment options, poor urban youth are using social media platforms to capitalize on the public's fascination with the ghetto and gang violence. But with what consequences? *Ballad of the Bullet* follows the Corner Boys, thirty or so young men on Chicago's South Side who have hitched dreams of success to the creation of "drill music" (slang for "shooting music"). Drillers disseminate this genre of hyperviolent, DIY-style gangsta rap digitally, hoping to amass millions of views and followers—and a ticket out of poverty. But in this perverse system of benefits, where online popularity can convert into offline rewards, the risks can be too great. Drawing on extensive fieldwork and countless interviews, *Ballad of the Bullet* looks at what happens when the digital economy and urban culture collide.

## The New York Nobody Knows

Walking 6,000 Miles in the City  
William B. Helmreich

### An intimate portrait of the Big Apple

As a child growing up in Manhattan, William Helmreich played a game with his father called "Last Stop." They would pick a subway line, ride it to its final destination, and explore the neighborhood. Decades later, his love for exploring the city was as strong as ever.

Putting his feet to the test, he decided that the only way to truly understand New York was to walk virtually every block of all five boroughs—an astonishing 6,000 miles. His journey took him to every corner of Manhattan, Brooklyn, Queens, the Bronx, and Staten Island. Helmreich spoke with hundreds of New Yorkers from every part of the globe and all walks of life. He finds that to be a New Yorker is to struggle to understand the place and to make a life that is as highly local as it is dynamically cosmopolitan.

Truly unforgettable, *The New York Nobody Knows* will forever change how you view the world's greatest city.

## Nonstop Metropolis

A New York City Atlas

Rebecca Solnit, Joshua Jelly-Schapiro

Winner of the 2017 Brendan Gill Prize from the Municipal Arts Society of New York

"The maps themselves are things of beauty . . . A document of its time, of our time."

—Sadie Stein, *New York Times*

"One is invited to fathom the many New Yorks hidden from history's eye."

—Maria Popova, *Brain Pickings*

*Nonstop Metropolis*, the culminating volume in a trilogy of atlases, conveys innumerable unbound experiences of New York City through twenty-six imaginative maps and informative essays. Bringing together the insights of dozens of experts—from linguists to music historians, ethnographers, urbanists, and environmental journalists—amplified by cartographers, artists, and photographers, it explores all five boroughs of New York City and parts of nearby New Jersey. We are invited to travel through Manhattan's playgrounds, from polyglot Queens to many-faceted Brooklyn, and from the resilient Bronx to the mystical kung fu hip-hop mecca of Staten Island. The contributors to this exquisitely designed and gorgeously illustrated volume celebrate New York City's unique vitality, its incubation of the avant-garde, and its literary history, but they also critique its racial and economic inequality, environmental impact, and erasure of its past. *Nonstop Metropolis* allows us to excavate New York's buried layers, to scrutinize its political heft, and to discover the unexpected in one of the most iconic cities in the world. It is both a challenge and homage to how New Yorkers think of their city, and how the world sees this capital of capitalism, culture, immigration, and more.

## Infinite City

A San Francisco Atlas

Rebecca Solnit

What makes a place? *Infinite City*, Rebecca Solnit's brilliant reinvention of the traditional atlas, searches out the answer by examining the many layers of meaning in one place, the San Francisco Bay Area. Aided by artists, writers, cartographers, and twenty-two gorgeous color maps, each of which illuminates the city and its surroundings as experienced by different inhabitants, Solnit takes us on a tour that will forever change the way we think about place. She explores the area thematically—connecting, for example, Eadweard Muybridge's foundation of motion-picture technology with Alfred Hitchcock's filming of *Vertigo*. Across an urban grid of just seven by seven miles, she finds seemingly unlimited landmarks and treasures—butterfly habitats, queer sites, murders, World War II shipyards, blues clubs, Zen Buddhist centers. She roams the political terrain, both progressive and conservative, and details the cultural geographies of the Mission District, the culture wars of the Fillmore, the South of Market world being devoured by redevelopment, and much, much more. Breathtakingly original, this atlas of the imagination invites us to search out the layers of San Francisco that carry meaning for us—or to discover our own infinite city, be it Cleveland, Toulouse, or Shanghai.

## Unfathomable City

A New Orleans Atlas

Rebecca Solnit, Rebecca Snedeker

Like the bestselling *Infinite City: A San Francisco Atlas*, this book is a brilliant reinvention of the traditional atlas, one that provides a vivid, complex look at the multi-faceted nature of New Orleans, a city replete with contradictions. More than twenty essays assemble a chorus of vibrant voices, including geographers, scholars of sugar and bananas, the city's remarkable musicians, prison activists, environmentalists, Arab and Native voices, and local experts, as well as the coauthors' compelling contributions. Featuring 22 full-color two-page-spread maps, *Unfathomable City* plumbs the depths of this major tourist destination, pivotal scene of American history and culture and, most recently, site of monumental disasters such as Hurricane Katrina and the BP oil spill.

The innovative maps' precision and specificity shift our notions of the Mississippi, the Caribbean, Mardi Gras, jazz, soils and trees, generational roots, and many other subjects, and expand our ideas of how any city is imagined and experienced. Together with the inspired texts, they show New Orleans as both an imperiled city—by erosion, crime, corruption, and sea level rise—and an ageless city that lives in music as a form of cultural resistance. Compact, lively, and completely original, *Unfathomable City* takes readers on a tour that will forever change the way they think about place.
