- "This book is of the highest importance."
Martin Wolf, *Financial Times*
- "A remarkable new book."
John Harris, *The Guardian*
- "An excellent book."
Nicholas Kristof, *New York Times*
- "The system is broken and every bit of it needs fixing. This is a sobering – and essential – book."
Diane Coyle, *Enlightened Economist*
- "Complementing their candid prose with enlightening charts and graphs, Case and Deaton make the scale and immediacy of the problem crystal clear. This is an essential portrait of America in crisis."
Publishers Weekly
- "Simply put, this is a terrific book. I suspect it will be on many people's top 10 book lists of 2020. Although written before COVID-19, the book's critique of the US approach to health care and inequality is remarkably prescient. In many ways, the opioid crisis Case and Deaton analyze is a microcosm of the anguish the world is experiencing today, and we would be remiss not to pay attention to their insights."
Kenneth Rogoff, *Finance & Development*
- "[A] remarkable and poignant book."
Dani Rodrik, *Project Syndicate*
